

Ae Kerry

As an artist, my creative exploration is driven by a deep desire to embody the essence of humanistic Buddhism, a philosophy that holds immense personal significance.

Taking a pragmatic and realistic approach, I find great pleasure in blending cultural elements and concepts such as family, food, and the human body with the captivating beauty of nature.

My intention is to forge a profound connection that unites humanity, culture, and the Earth.

With each artistic endeavor, I embark on a meditative journey, striving to craft timeless pieces that evoke both joy and cultural resonance.

I am available for bespoke work and commissions, murals, portraits, lessons, workshops, consultancy and appraisals. Please contact me via DM on Instagram and check out my stores below.
